Experience

Frontend Developer Internship [Certificate](#)   Nov 2022 - April 2023
Frontend Simplified

- Transformed a completely static HTML, CSS, JavaScript and React single page application into an interactive user interface using animations, transitions and carousels
- Processed API requests with Axios to dynamically represent data from a cloud server and represented it through skeleton loading states, pagination and dynamic routing
- Utilized Git version control and the GitHub interface to work and thrive in a virtual and collaborative team environment

Junior Loss Adjuster   Jan 2021 - May 2021
Crawford & Company

- Assessed domestic and commercial property claims through a triaging process
- Evaluated risk(s) of loss(es), or damages to property, culminating in the loss of property and or bodily injury.
- Determined extent and cause of loss via the most effective, efficient and client and customer-focused method of investigation

Bartender / Receptionist   July 2018 - Jan - 2021
Suther United Services Club / Club on East

- Organized bar inventory and storage procedures to keep stock within optimal levels and meet expected customer demands
- Preserved secure cash drawers, promptly resolving discrepancies for accuracy
- Maintained alcoholic beverages well-stocked and organized to meet expected demands

Projects

Jobify | [Website](#) | [GitHub](#)
- Fullstack application that uses MERN to deliver a seamless user experience, efficient data management, and smooth communication between the client and server. (MongoDB, Express, React, Node.js)

Twitter Clone| [Website](#) | [GitHub](#)
- Incorporating a fully functional backend database allowing users to create their own profiles as well as tweet and comment all done through server side rendering (Redux, Firebase, Next.js, Tailwind Css)

E-Portfolio| [Website](#) | [GitHub](#)
- Digital portfolio using Vanilla JS that showcases all the projects (Email.js, HTML, CSS, JAVASCRIPT)

NFT Marketplace | [Website](#) | [GitHub](#)
